

1.3 CURRICULUM ENRICHMENT

1.3.2.1. Number of students undertaking project work/field work / internships

Queries during DVV: HEI to pl note: Under this metric, Students in last year are to be included. Pl check and update. Pl submit Internship completion certificate / project work completion certificate from the organization.

Responses to queries (DVV) Metric ID - 1.3.2

1. According to the Standard Operating Procedure (SOP), we are able to furnish information about students involved in project work, fieldwork, or internships during the most recently concluded academic year. However, we need to exclude students engaged in these activities within the same academic session.
2. In line with this stipulation, we have tallied solely those students who undertook both project and field work during a final semester, as these activities occurred within the same academic session.
3. However we have identified students who performed field work in the latest completed academic year in addition to the 632 final year students who performed project work (6 th semester).
4. In the case of MSc Geology students, 14 students participated in fieldwork during the fifth semester and subsequently engaged in project work during the final semester (different academic sessions).
5. Similarly, 30 BSc Botany students conducted fieldwork during the fifth semester and pursued project work during the final semester (different academic sessions).
6. Additionally, 31 BSc Botany students participated in a field visit during the fourth semester.

7. Regrettably, during SSR submission we inadvertently omitted the supporting documents for the assertion regarding 75 students (14+30+31) who engaged in field work during distinct academic sessions within the same academic year.
8. Therefore our input under this matrix is revised to 707
9. Now we furnish the necessary supporting documentation to substantiate the claim which we did not provide earlier. This includes the field work sanctioning letter, field work report, certified student list for those involved in the field work, and the syllabus illustrating field work and project activities across various academic sessions.
