2.2 STUDENT TEACHER RATIO

2.2.1 Student – Full time Teacher Ratio (Data for the latest completed academic year)

Queries during DVV: No claim under this metrics

Responses to Queries (DVV) Metric ID - 2.2.1

We acknowledge a discrepancy in our reported Student – Full-Time Teacher Ratio (Data for the latest completed academic year) of 19.73, as initially documented in the SSR draft report we downloaded. However **we are revising our input to 19.53** incorporate the following details:

1. In the DVV findings, it was noted that no claim had been made under this metric.
2. To address this, we have diligently updated our teacher list for the academic year 2022-23, rectifying the inadvertent omission of Dr. Anumol C. N. from the Department of Physics.
3. The updated teacher list for the academic year 2022-2023 now comprises a total of 100 teachers.
4. During this academic year, our institute had a total of 1953 students.
5. Consequently, the corrected Student – Full-Time Teacher Ratio we now claim under metric 2.2.1 stands at **19.53**.
6. We sincerely appreciate your understanding and the opportunity to rectify this oversight.
