## EXECUTIVE SUMMARY

"An Green audit is a systematic management tool employed to safeguard and preserve the environment, as well as to promote its sustainability. This audit evaluates various established criteria, approaches, and initiatives for utilising the environment effectively. Green Auditing of the Government College Kasaragod enables us to assess the way of living and its impact on the environment. The process of generating the audit report involved the use of questionnaires, group discussions, and interviews to collect information. This information, along with recommendations and suggestions, was then utilised to create the final Green Audit report."

## 1. INTRODUCTION

### About the College

Government College Kasaragod was established in 1957 by the Government of Kerala, as a need was felt for a college in this underdeveloped area. The College commenced functioning early in August 1957. The College was declared open by the Honourable Minister of Finance, Sri. C. Achutha Menon on 07-08-1957. Now, the college offers 14 undergraduate courses, 8 postgraduate courses and 6 PhD programmes. College is re-accredited with NAAC 'A' grade in 2013. In 2021, the college was ranked 82 among all colleges in India under the National Institution Ranking Framework (NIRF).

### Mission

“Our Mission is to achieve the overall development of the students with a focus on knowledge, skill and the right social attitudes and service-mindedness required for attaining excellence in personal as well as social life.”

### Vision

“We are guided and inspired by a glorious vision to use our physical, mental and Intellectual energies to the advancement of the individual and the society, to strive for the noble cause of education, truth and righteousness, to instil a sense of pride and emotional belongingness in the mind of every individual.”

## 2. PHYSICAL AREAS

Government College Kasaragod has a total area of 30.26 Acres. Out of the total area, 10153.81 square metres is the built-up area, and the rest of the area is used for various purposes. The following table provides a detailed breakdown of the built-up area within the campus:

### Area details of the Government College Kasaragod:

Sl. No	AREA DETAILS	BUILT UP AREA (in m <sup>2</sup> )
1	Science block	177.5
2	Main block	436.85
3	Auditorium	124.80
4	Open auditorium	90.30

### 3. OBJECTIVES OF THE AUDIT

- Acknowledge the institution's proactive efforts in promoting Green awareness and action.
- Safeguard the environment and mitigate threats that can harm human health.
- Provide essential data for institutions to assess and manage Green changes, hazards, and risks.
- Identify, diagnose, and solve Green issues effectively.
- Recognize the reciprocal impact between institutions and the environment.
- Pinpoint and manage the influence of an institution's activities on the environment.
- Recommend optimal guidelines for sustainable development within organisations and for Green conservation.
- Evaluate Green performance and the effectiveness of measures in achieving specific objectives and targets.
- Identify various factors pressuring institutions to enhance their Green performance.
- Ensure responsible utilisation of natural resources in accordance with national Green policies.
- Establish criteria for preserving the health and well-being of the institution's community.

## 4. METHODOLOGY ADOPTED

### 1. Field Visit:

The purpose of the field visit is to analyse the biodiversity of different sources. The Green audit team conducted field visits during specific intervals and collected the data on different indicators.

### 2. Group Discussion:

Group discussions were held with Bhoomithrasena, Eco club, Nature club, NSS, faculties, office staff, and management of the various strategies of target areas.

### 3. Survey:

The environment audit team conducted surveys on various aspects of target areas by distribution of survey founders on different headings. All the departments, office, canteen, and library participated in the detailed questionnaire survey study.

## 5. CARBON FOOTPRINT ANALYSIS

The analysis of a carbon footprint allows the institution to assess its Green impact by considering the carbon consumption of stakeholders or the direct and indirect emissions of CO<sub>2</sub> or greenhouse gases (GHG) throughout the entire life cycle of activities. Drawing from the initial footprint concept, this study has devised a method specifically tailored for assessing institutional carbon footprints. Carbon footprint analysis serves as a tool for evaluating the ecological sustainability of consumption. However, since this study concentrates on GHG emissions resulting from institutional lifestyle and transportation choices and their effects on the environment, we have adapted the original footprint analysis to incorporate institutional criteria.

### Institutional parameters:

Total number of vehicles	Cars: 21, Motorcycle:53
Average distance travelled by stakeholders	28 km
Quantity of fuel	4L - 5L
Amount spent per day	Rs. 472
No. of persons using public transportation	950
No. of generators in the institution	3
No. of LPG cylinders used on campus	16
Source of any other fossil fuel in the college	Nil

## 7. GREEN INITIATIVES OF GOVERNMENT COLLEGE KASARAGOD

Government College Kasaragod is progressing towards carbon neural campus through different green activities.

### BAMBUSETUM (Pachathuruth No. 534)

College is maintaining a rare germplasm collection of Bamboo species and allied species in the campus. Bambusetum comprises around 150 plants belonging to 51 species.

Bambusetum is one of the green activities to fight against CO<sub>2</sub> emission in the campus. It provides a cool atmosphere in the campus and also acts as an excellent habitat for several butterflies. The plantation activities in the Bambusetum were started in 2019 and plantation of new species continues every year.

### LIST OF SPECIES IN THE BAMBUSETUM

	Name of Species
1	Assam gold [Shizostacheum brachycladum]
2	B.pallida
3	B.vulgaris - green
4	B.vulgaris -yellow
5	Bambusa varigata (White leaf)
6	Bambusa andamanica
7	Bambusa balcooa
8	Bambusa bambose
9	Bambusa caccharancis
10	Bambusa glaucescens - Bush Bamboo
11	Bambusa latiflorus
12	Bambusa mizoramiana
13	Bambusa multiplex (Pencil Bamboo) (green)
14	Bambusa multiplex (yellow)

15	Bambusa nutans
16	Bambusa polymorpha
17	Bambusa tulda
18	Bambusa vulgaris wamin (Budhas belly) green
19	Black bamboo[Gigantochloa atroviolatia]
20	Burmese bamboo
21	Copper bamboo
22	Creeper bamboo[Dinochloa andamanica]
23	Dendrocalamus longispathus
24	Dendrocalamus asper
25	Dendrocalamus brandisii
26	Dendrocalamus giganteus [giant bamboo]
27	Dendrocalamus hamiltoni
28	Dendrocalamus membranaceus
29	Dendrocalamus sikkimensis
30	Dendrocalamus strictus (Mysore)
31	Dendrocalamus strictus (Nilambur, straight)
32	Garden Bamboo
33	Gigantochloa albociliata]
34	Gigantochloa nigrociliata
35	Guadua angustifolia
36	Melocanna bacciferra
37	Ochlandra scriptoria
38	Ochlandra travancorica (Eetta)
39	Oxytenanthera parvifolia
40	Phyllostachis aurius (Chinese bamboo)
41	Psuedoxytenanthera ritcheyi
42	Psuedoxytenanthera stocksii
43	Schizostachyum beddomie
44	Schizostachyum dullooa
45	Sinocalae kumasaca
46	Syrsostachis oliveri (Lami bamboo)

47	Thysanolaena maxima -Tiger grass
48	White leaf –big[white dragon] Fargesia dracocephala
49	Dendrocalamus stocksii
50	Ochlandra beddomei

## ENDEMIC GARDEN (PACHATHURUTH NO.533)

The endemic garden started in 2022 for conservation of rare endemic trees of Western Ghats. Presently seedlings of 80 rare endemic tree species collected by MSSRF Wayanad are growing in this garden. In 2023, 50 seedlings of Saraca asoka (Ashokam) were planted in this garden to increase the green cover of the campus. A part of the garden is now used for the plantation of Larval Host plants of butterflies.

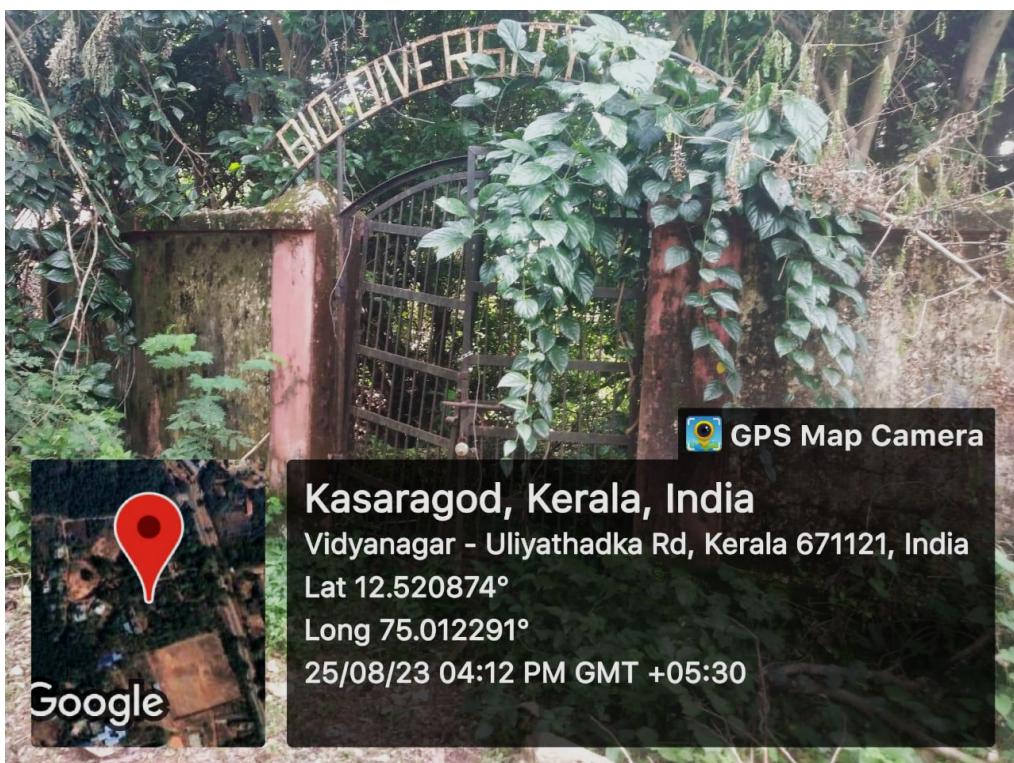

Name and Signature of the Principal

**Dr.Ananthapadmanabha.A.L**

## BIODIVERSITY PARK (Pachathuruth 535)

It is the key attraction of biodiversity conservation on the campus. It was started in 2009 and supports around 350 flowering plants. Many endemic plant species were introduced into the biodiversity park every year and presently it provides habitat for wild animal species. A narrow footpath is constructed in the park, which allows students to study the biodiversity with minimum disturbance to the flora and fauna. The name boards are exhibited at the park to ensure easy identification of plant species and animal species.

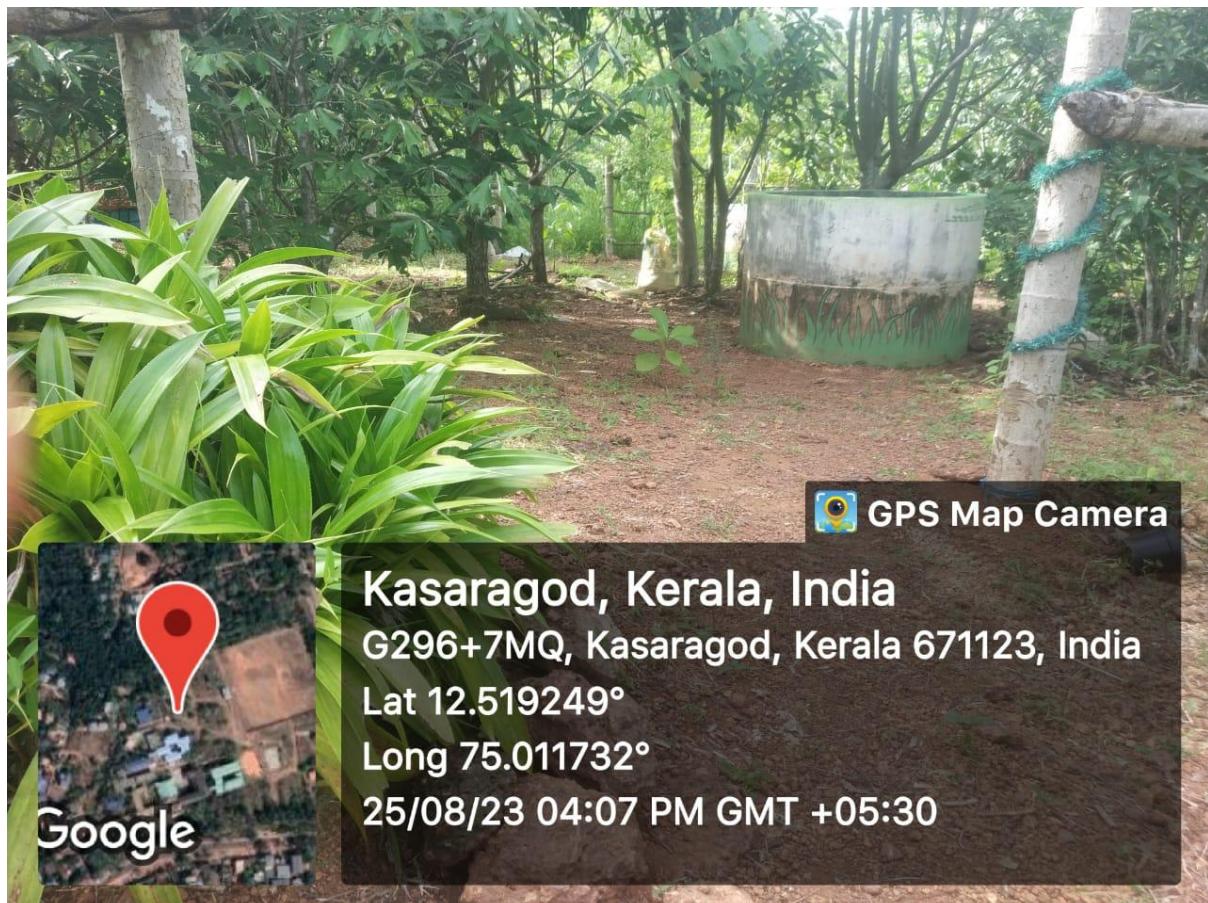

Name and Signature of the Principal  
**Dr.Ananthapadmanabha.A.L**

## R.E.T GARDEN

The N.S.S unit is maintaining the R.E.T garden for the conservation of flowering plants belonging to rare, endangered and threatened categories of IUCN. More than 100 species of flowering plants are protected in the garden with help of N.S.S volunteers.

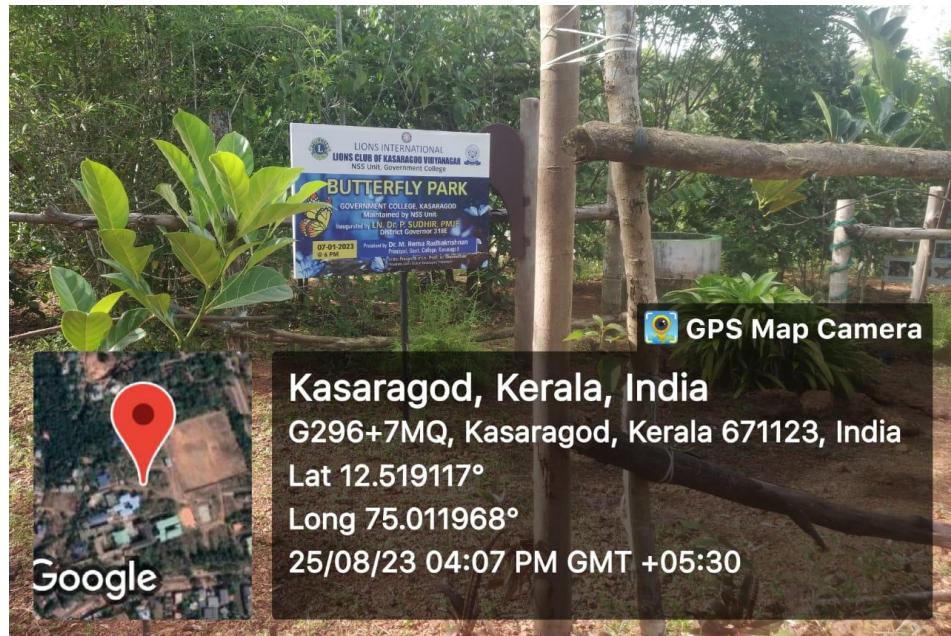

Name and Signature of the Principal  
**Dr. Ananthapadmanabha.A.L**

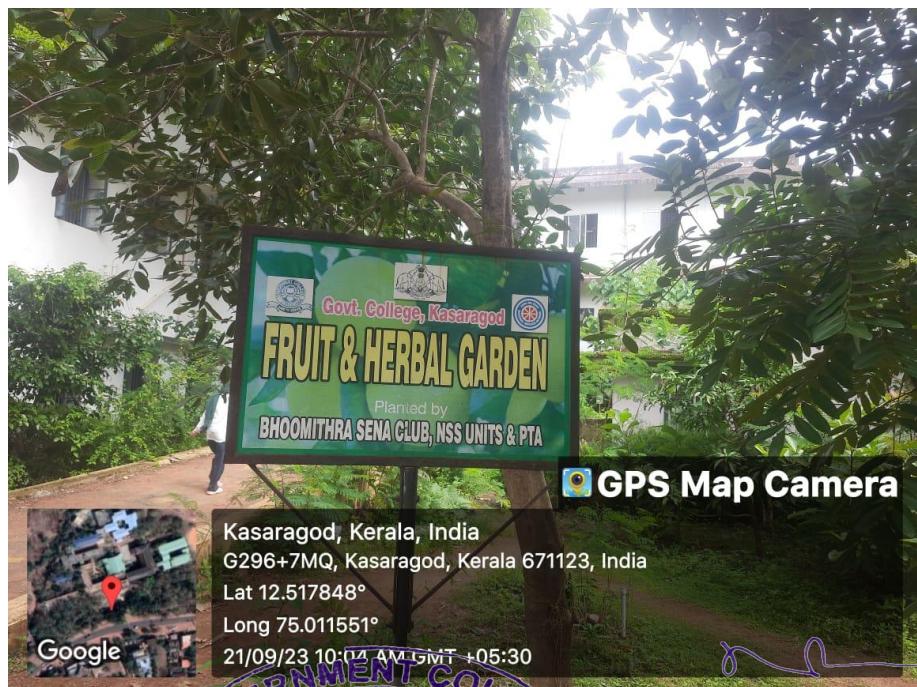

## BUTTERFLY PARK

The N.S.S units is maintaining a butterfly park for the conservation of rare butterflies on the campus with the assistance of LIONS club Kasaragod.

## FRUIT & HERBAL GARDEN

The N.S.S units & Bhoomithra Sena Club is maintaining a Fruit and Herbal Garden.

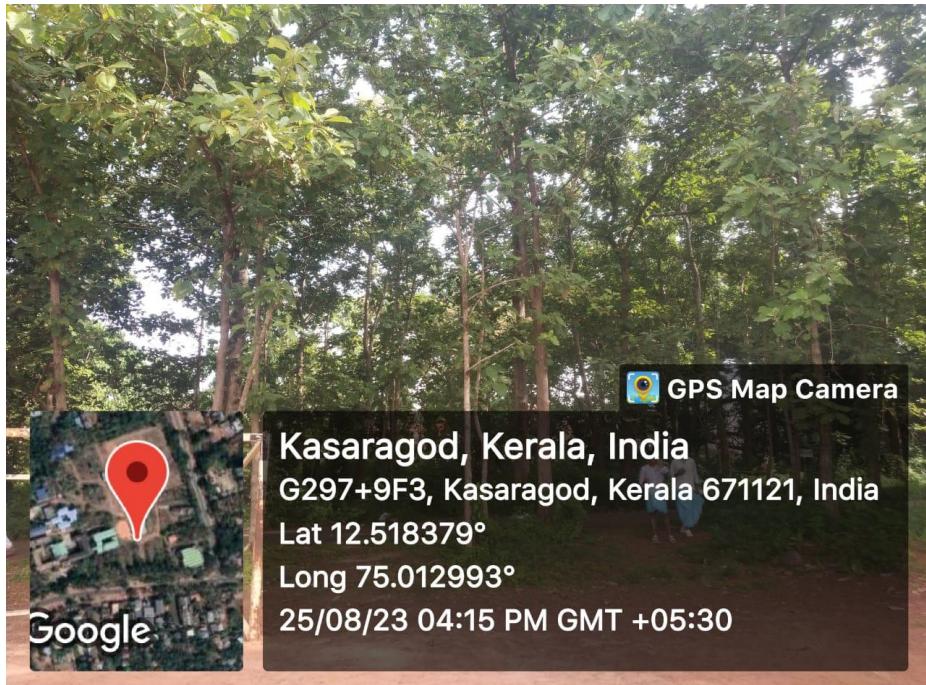

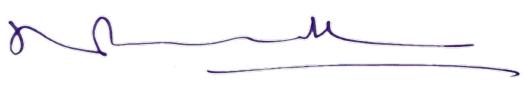

Name and Signature of the Principal  
**Dr.Ananthapadmanabha.A.L.**

## TEAK PLANTATION

Government college Kasaragod is maintaining a teak plantation with around 300 teak trees. Then teak plantation acts as a huge sink of CO<sub>2</sub> emitted by the daily activities of College.

  
Name and Signature of the Principal  
**Dr. Ananthapadmanabha A.L.**

## 8. FINDINGS:

- College is maintaining well developed biodiversity park, bambusetum, Endemic Garden and RET garden.
- Students are encouraged to depend on the public mode of transportation by availing of the bus fare concession issued by the Government of Kerala.
- Planting more trees within the campus.
- Implementation and maintenance of plants with the support of students.
- The campus is also home to a diverse collection of plants and animals, necessitating conservation efforts.

## 9. SUGGESTIONS AND RECOMMENDATIONS

- Make the campus carbon negative by planting more trees
- Encourage and practice vehicle pooling among stakeholders to attain a minimum number of vehicles inside the campus.
- Uplift the usage of electric vehicles instead of conventional fossil fuel vehicles.
- Promote the usage of bicycles for short-distance travel.

## Certificate of Appreciation

This is to certify that the Government College Kasaragod had conducted a Green Audit & Environment audit to assess the efficacy of green initiatives by the college to maintain the college eco-friendly. The measures and action taken by the college towards the development of a sustainable green environment are highly appreciable and commendable.
